Out Source

All Mundane 3D Modeling Tasks

Our 3D Modeling service is not limited to furniture. From Decor to plants, from appliance to light fixture you name it.

Below we put together some of our past works on interior objects 3D Modleing-

3D Modeling and Rendering
by 7CGI Team

We fall in love with our Clients

They don't ask for revisions. Who would not love their clients who never send markups? But we also fall in love with our clients because they fall in love with us. Here are the reasons-

- *Transparent Quoting and Billing*
- *Our work rarely require revision rounds.*
- *We offer 100% Money Back Gurantee if the work is not delivered on time.*
- *For "small projects," our clients hand over the work before they get to bed, and we deliver it before they wake up. So, literally no waiting period.*

Yes! The list is not long. But we believe these are very good reasons.

Please email at abdullah@7cgi.com if you would like to take a look at some example 3D Model we produced in the past.
